

COMMUNITY MEETING MINUTES – May 4, 2010

Meeting convened: 6:03pm

Present: 5

Facilitator:

Scribe: Kay Smitherman

- NLI Committee has met a few times and decided to focus energy on volunteer friendly aspect of plan with high visibility. Will send mass email, for Angela to facilitate – to assess interest and skill. Deb Godshall is a landscape architect and engineer and will help plan drainage improvements for property as well as Garden Plots for students to cultivate and incorporate into their curriculum.
- Annamarie mentioned compost bins as a useful addition. Christine Childs will spearhead that training.
- Plans and instructions will go online to a community website, so plans and upkeep are consistent over time.
- Poured surfaces will be coordinated to efficiently use volunteers.
- Meeting adjourned at approximately 6:30pm.

Respectfully submitted, Kay Smitherman
